RAINBOW
EXOGENOUS ANALYSIS
AND CONTAINMENT TEAM

FINKA

REAL NAME: Lera Melnikova

ORGANIZATION: CBRN

BIRTHPLACE: Gomel, Belarus

DATE OF BIRTH: June 7, 1989

FINKA's background in Microbiology pushed her to the top of the REACT recruit list. Years with Russian Spetsnaz made her an exceptional operator, but it was her condition which led to the development of her nanobot-driven adrenalin boost. FINKA can share this boost with the team to enhance operational capabilities; a tactical edge when battling the Parasites.
